

Sustainable Wild Garden Style Dried Flower Wreaths

Each of my wreaths is hand crafted and can be personalised to your favourite colour tones, just let me know colour preferences. Each wreath is built on a natural base with my signature English garden & meadow style of foliage, seasonal flowers & seed heads woven through. Wreaths can also have a ribbon attached in a complimentary colour.

The wreaths will last many years with proper care. Simply ensure they are hung in a cool, dry space outside of direct sunlight. The nature of dried flowers is that they are fragile and fade over time, but this is the beauty of everlasting flowers.

Each wreath is unique. It is hand crafted to order from everlasting seasonal British flowers grown in our Shropshire cutting garden and dried naturally. Some foliage and florals are occasionally sourced from other British growers and suppliers if my flowers are not available. Wreath bases are biodegradable for example willow or vine. No plastics, no floral foam, no bling, no bleaching, no chemicals, no artificial dyes.

To order please email me via the website or call 07870 265217

Everlasting Dried Flower Wreaths
