

## Farewell Flowers Guide

### Beautiful Seasonal & Sustainable Tributes

*"I can't think of a more lovely, caring and compassionate person to trust with her flowers."*

Thank you for supporting  
British grown flowers.

## Beautiful, Seasonal & Sustainable Tributes

Our naturalist garden inspired, wildflower farewell tributes are created using sustainably grown flowers from our own cutting garden and from other local British flower growers.

The tributes are made using compostable and reusable elements only. They are plastic and foam free and are suitable for natural burials.

Gate House Florals is a proud member of the Farewell Flowers Directory [www.farewellflowers.co.uk](http://www.farewellflowers.co.uk) a thriving UK directory of florists offering plastic free, compostable funeral arrangements across the country.
